

Friday the 28'th December 2007

The day we startet very slowly. We enjoyed just the Morning without any hurry. After we had a small breakfast and another few ours in our room we went to a restaurant next to the hostel. There we had our lunch. It was quiet good. After that we started to go by bus to the place of the ice sculptures. We started to go there at 14 o'clock and arrived there at 15 o'clock. A very very long trip. But to go by bus is very cheap. You only pay for one ride 4 RMB. During our way to the place of the ice sculptures it began to snow. And it didn't stop till we went back home at 22 o'clock. It was unbelievable what we saw there at the place of the ice sculptures. The pictures we saw a few weeks ago didn't lie. We hear a lot of different things when it's start to see them. So we were very lucky about that. And we started to make pictures over pictures. It was great.

picture 1: the great wall at daytime

Even if you see such constructions on pictures it's great. But if you see them with your own eyes it's much better. We started with the great wall! We walked over the great wall made of ice. At the end there was a slight to go down. That made a lot of fun to go down. Even the way to the slight was great. Using steps made of ice. Then we went on with the old buildings from Athen. There have been also a slight but you were not allow to slight.

picture 2: the old buldings of Athen
