

Afterwards it was time to go home again. But first we had to go through several seller things. It was quiet a long we till we got to the real exit. There they sold a lot of coconut products, pearls, tropical fruits and some other souvenirs. Till a double decker bus came took a long time and there still came none. So we took another bus. Anna asked the person who takes the money for our place. We took a such a small bus. Which is very funny. There is the bus driver and the person who takes the money. The job of the person that takes the money has also to scream and animate the people to go with this bus. When you are waiting they such buses ask you all the time if you want to go with them. The ticket seller went in our bus through and took the money from everybody. Us two he forgot to take the money. We wait with it till we arrived at our place and gave him the 5 RMB for each person.

We arrived next to our hostel and have been very hungry. Yesterday I so a noddle restaurant (nearly the same which is next to my office in Tianjin) where we decided to go for dinner. We pointed on the meals we wanted to eat. After a long time Anna's meal came for my I had to wait a little bit longer. The waiter forgot that I ordered something. At least I got my meal too. It was not the same tast but it was also delicious. For both meals we had to pay only 12 RMB. That's so cheap and so good. As dessert we went to our fruit seller and ordered a ice cream. The woman who sell that ice cream remember us and was very friendly. It was again so delicious. It's a shame that we don't have such a ice cream in Germany. Afterwards we went home to our hostel and had a small rest. It was already dark outside when we went out again. We bought in the morning some wine which we took and enjoy the evening on the beach. After we finished our bottle of wine we went home and went to bed.
